(706) 718-4590

Practice & Industry Areas

- eDiscovery
- Business Litigation

Education

- DeVry University, B.S. CIS, cum laude, 2009

Overview

Joel Harper is an eDiscovery Technology Manager with nearly two decades of experience in litigation support. Utilizing his experiences and through collaboration with case teams he identifies and implements solutions to resolve a large breadth of eDiscovery needs. Joel's expertise lies in his ability to discern solutions to complex issues and to identify a plan for resolution, communicating to stake holders and ensuring that best practices are adhered to. His eDiscovery application experience includes Relativity, Reveal, Brainspace, iPro, LAW, Nuix, Concordance, Summation, and Ringtail.

Prior to joining Gunster, Joel worked as a senior project manager leading all facets of case management from collections to productions for complex large-scale litigation matters.
